POSTVENTION

Because all student/faculty/staff deaths affect our community, whether that death is accidental, due to illness, or the result of self-inflicted injury, it is important for Chattanooga State to respond to and recognize all deaths in a consistent manner. Campus leadership and the communications department developed a protocol that includes a campus response to a student/faculty/staff suicide to decrease the trauma experienced by the students and other campus community members left behind and to help prevent further suicides through contagion.
